

## **Declaration of Origin**

We confirm that all surgical instruments manufactured by Platts & Nisbett are produced on site at our manufacturing facility in Sheffield, UK.

All instruments are ethically produced by our highly skilled craftsmen.

We train our own apprentices in a safe and healthy working environment.

All Platts & Nisbett surgical instruments are manufactured using only the finest stainless steel, in accordance with ISO 7153-1. The 420 grade is typically used due to its strength and corrosion resistance. Material Certification is available on request.

More information can be found on our Frequently Asked Questions factsheet.
